Sweden's best low intervention / natural wine list 2020 - Star Wine List

Pascaline Lepeltier, winner of France sommelier competition 2018 and
jury member in Star Wine List says :

"It is great to see so many restaurants dedicated a major part, if not all, of their selection to low intervention wines. Not only the choice but the depth of vintages is also remarkable in most of these lists - there are a lot of rare wines, some with age, I would like to be able to have in New York!"

"Overall I was really impressed by the 'maturity' shown - low intervention wines are shown the respect they deserve. And for its depth, its back vintages, its pertinent selection, the winner is Villa de Luxe. Bravo for a patiently curated, terrific selection, one of the best in the world for me!"
