

Don't be shocked, I know; this is a huge wine list.
But I think wine is a wonderful product. Every producer, every region is different.
Every winemaker has its own approach to making wine. Some like to use traditional methods that have been established a long time ago, and others embrace modern technology to produce their style of wine.
That's why I like discovering small producers as well as drinking wine from established, big names.

Our wine list contains unique wines, with a focus on good prices and good quality. It might be a bit of a cliché, but isn't that what everyone prefers?
And as icing on the cake, or cork in the bottle, we have received multiple awards from 2019 from renowned wine magazines Wine Spectator and Fine Wine.

Can't choose or do you just want advice?
Please ask our help, that's what we are for.

- Vasilios Papadopoulos -

Spotlight Producer: Thymiopoulos

Nestled in the heart of Greece's Naoussa region, Thymiopoulos Vineyards is celebrated for its dedication to organic viticulture and its mastery of the indigenous Xinomavro grape.

Apostolos Thymiopoulos, the first in his family to vinify their vineyards, produced his first wine in 2005. With a commitment to sustainable viticulture and minimal intervention, Apostolos creates wines that showcase the full potential of the Xinomavro grape, the iconic variety of Northern Greece.

Xinomavro [ksie-noh-ma-vroh] is a grape that has solidified Greece's reputation in the world of high quality wines. Often compared to Nebbiolo due to its fruity and tannic character, it also shares a remarkable ability to age gracefully. While Naoussa, located in the foothills of Mount Vermio in northeastern Greece, is considered the grape's heartland, regions such as Rapsani and Amyndeon are also crafting exceptional Xinomavro wines. Xinomavro is a must-try for any wine enthusiast looking to explore Greece's offerings.

White

Spotlight Producer: Clau de Nell

Started in 2000 by Claude and Nelly Pichard, Clau de Nell is a biodynamic winery located in the Loire Valley of France, near the village of Ambillou-Château. In 2008 the winery was acquired by Anne-Claude Leflaive and Christian Jacques after Claude and Nelly asked for help. In 2015 Anne-Claude passed away and daughter Claire also joined the winery.

Clau de Nell's vineyards are cultivated entirely according to biodynamic principles. This method goes beyond organic farming, using no synthetic chemicals and focusing on the overall health of the ecosystem.

The estate's focus is on low-yield farming, ensuring the grapes are of the highest quality, concentrated, and full of character. Grapes are harvested by hand to ensure that only the best fruit is selected for winemaking.
