

## BOOK ONE

Welcome to our Wine List.

In book ONE you will find wines from around the world by the glass, Coravin and bottle. In book TWO you will find only Italian red wine by the bottle.

We hope you enjoy reading and browsing through it as much as we have enjoyed collecting these wines over the years.

Our 1500 plus selections offer something for everyone: half-bottles, large formats such as magnums (two bottles) and three-liters (four bottles), premium wines by the glass and our own house selections blended for us in the Veneto and Toscana regions.

As a restaurant specializing in classic, regional Italian food, we take great pride in presenting a comprehensive selection of wine from all parts of the Italian peninsula. At the same time, we're excited to offer a wide range of the finest small-production California estates, as well as the great Châteaux of France.

Regardless of origin, many of these wines reflect our own travels, as well as the friendships we've forged with winemakers around the world.

We hope that your choice enhances both your meal and your happiness.

Using the Coravin system we offer some of our best wines by the glass.

*“My dream was to magically pour wine from bottles without ever pulling the cork. The remaining wine could then go back in my cellar, so that I could enjoy it again, whenever I desired. What followed was a decade of development and testing until I had a system that left the cork in place, but still delivered great glasses of wine, indistinguishable from untouched bottles.”*

*Greg Lambrecht, Coravin Founder*

## FRANCIACORTA

*Franciacorta, located in Lombardy, has captured connoisseurs while becoming Italy's first sparkling wine to earn the guaranteed rank of "Denominazione di Origine Controllata e Garantita (DOCG)".*

*What winemakers refer to as the "metodo Franciacorta" requires aging of at least 25 months from the harvest of the youngest wine in the blend or "cuvée", extending to 37 months for the vintage bottlings. Although the early sparkling wines of Franciacorta were often based on Pinot Bianco and Pinot Nero, the current predominance of Chardonnay is credited with enhancing the sensation of raciness and finesse.*

*Jankara represents a new dimension in the evolution of Italian white wine: a single-vineyard Vermentino di Gallura Superiore grown in Sardinia, close to the famous Costa Smeralda beaches. The wine yields scents of white flowers, almonds and tropical fruit on the nose; on the palate, it displays a beautiful balance between alcohol, acidity and fruit. When we first tasted this wine we were impressed by both its depth of flavor and its faithfulness to the terroir where it is grown. As the years progress and the vines age, we expect it to become even deeper and richer.*

*The Jankara, Colli del Limbara, “Lu Nieddu” 2013 is the first bottling of a blend of six different grape varieties procured from an 85 year old vineyard 400 meters above sea level. They include: Caricaggiola, Pascale, Cannonau, Dolcetto, Barbera and Cabernet Franc.*

*We are proud to offer the most complete vertical of JANKARA available outside of the winery.*

## FATTORIA LA MASSA

*We've always been fans of La Massa, but it wasn't until we visited the property in the summer of 2012 that we realized the passion and dedication of Giampaolo Motta in the creation of his wines. Giampaolo has re-styled Giorgio Primo into a world-class blend, while keeping the Sangiovese based La Massa very traditional. Carla 6 is his new wine made with 100% Sangiovese and named after his daughter Carla! We are proud to offer one of the largest vertical selections of Giorgio Primo available outside of the winery.*

## CARNASCIALE

*“In recent years, Il Carnasciale’s Caberlot has emerged as one of Italy’s most distinctive and highly-sought wines. With it’s cult status and tiny production of roughly 1,500 magnums, it is a wine many people have heard of but few have actually tasted.*

*The story dates back to the 1960’s, when agronomist Remigio Bordini discovered a highly unique clone which appeared to be a genetic mutation of Cabernet which also exhibited qualities more typical of Merlot. It was the perfect choice for the Rogosky family to plant in their vineyard in Tuscany. Hence, the first “Caberlot” vines were planted in 1985.” Robert Parker*

*The second wine, Carnasciale, is released in 750 ml bottles after 6 months additional aging, though the wine undergoes the same vinification and care as Il Caberlot. The selection is made after tasting each barrel, blind to ensure the highest quality, prior to bottling. The more ‘approachable’ wines are bottled as Carnasciale while the most complex wines are bottled as Il Caberlot.*

*The classic “Super Tuscan” since the late 1950’s.  
 A Bordeaux- style blend of 85% Cabernet Sauvignon and 15% Cabernet Franc.  
 “My father was never concerned with making a wine that fit into some governmental category.  
 What was important to us was to make an outstanding wine that we liked to drink.  
 It was very simple. My father wanted to make a wine like the great Bordeaux.  
 So he made Sassicaia

*One of the raciest wines in Tuscany, Solengo seduces with it's richness and finesse.  
 It's a blend of equal parts Cabernet Sauvignon, Merlot and Syrah  
 (early vintages included some Sangiovese).  
 Made in the Brunello Di Montalcino appellation between the  
 towns of Sant'Angelo in Colle and Sant'Angelo Scalo.  
 James Suckling, Wine Spectator*

*Castellare di Castellina was born of the union of four estates (Castellare, Caselle, San Niccolò and Le Case) on the initiative of Paolo Panerai, with the aim of producing wine of the best possible quality. This was in the 1970's when the so-called Renaissance of Italian wine had begun. A Renaissance to which Castellare made its own contribution with a combination of tradition and innovation only using indigenous Tuscan grape varieties to produce a wine that is internationally acknowledged as one of the greatest reds in the world.*

*One night in 1983, in Greve, the heart of the Chianti Classico Region of Italy, the first harvest of a special wine, was about to be picked. However, this was not to be. Wild boars entered the vineyard and savagely wiped out the entire crop.*

*A vintage lost, however, a name is born. CIGNALE.*

*Tuscan dialect for cinghiale or “wild boar.”*

*And so a story begins of a couple, Neil and Maria Empson, trailblazing Italian wine pioneers who have been importing fine Italian wine, to the United States for over 50 years.*

*Neil, who dreamed of creating a wine he coined a “Super Tuscan,” by combining the use of 10% Merlot and 90% low-yielding clones of Cabernet Sauvignon from Bordeaux, grafted onto 20-year-old Sangiovese vines, giving an extra depth to the wine.*

*Maria Gemma Empson, an artist by trade, who designed the labels, which feature a series of six pen and ink drawings depicting Cignale’s first, bristly fans.*

*Cignale was founded in 1981, destroyed in 1983, and finally released in 1990, with the 1986 vintage.*

**It's long been said that he will welcome your visit to his Case Basse estate *only* if you share his “production and sales philosophy of enlightened agriculture.”**

**He will sell wine to you, but only if you are approved because you “share the principles that have inspired his entrepreneurial policy.”**

***Skeptics are unwelcome.***

**While some see this as arrogant, the fundamental truth is that his self-confidence breeds great wines.**

**He knows exactly what he wants to achieve in both the vineyard and the cellar, and his techniques are an interesting blend of modern and ancient.**

**Due to the small production of all of these wines, combined with their devoted following, Soldiera are among the most sought-after, and difficult to find wines of Italy.**

**La Sirena is proud to offer you one of the world's most legendary wines.**

*If wine is poetry, let's respect its sensitivity.  
An environment is perfect when its presence is imperceptible.*

*Mastrojanni Brunello di Montalcino reveals a very precise and focused aromatic profile. This is a signature touch from this outstanding estate that, year in and year out, produces some of the best Brunello you can buy. The Wine Advocate*

*Donatella Cinelli Colombini has gained a loyal fan base over the years. She is an able communicator, but more importantly she has steadily maintained consistency in quality wines throughout the last ten years that I have been following her work. I can't ever remember being disappointed in her wines and this batch of new releases is some of her best work yet.*

*Monica Lerner, The Wine Advocate*

*It is a great honor and we take great pride in bringing you one of the greatest selections of Donatella Cinelli Colombini on the planet!*

## ROSSO DI MONTALCINO DOC

*This DOC was established in 1984 in part to ensure that only the very best production went into its big brother, Brunello di Montalcino. In lesser vintages, it allows producers to maintain the high standards of their Brunello and still make a return on their investment by de-classifying their Brunello crop and selling it as Rosso. Rosso di Montalcino requires only four months of aging before release. Rosso is an excellent alternative to the customer that wants some of the character of Brunello without the cost, and the Rosso di Montalcino from the top estates is usually an excellent value.*

## CHIANTI CLASSICO GRAN SELEZIONE

---

*The Consorzio of Chianti Classico introduced its new designation, Gran Selezione, in 2013.*

*It represents the pinnacle of a quality pyramid whose base comprises the Chianti Classico annate and mid-tier riserva categories. The goal is to have stricter standards to drive quality and inspire consumer confidence in the wines of Chianti Classico.*

*The new category is projected to represent about 10 percent of the Chianti Classico production. Chianti Classico Gran Selezione must be made from estate-grown grapes of a single vineyard (or selection of the estate's best parcels) and the aging requirements are longer than those of riserva, 30 months vs. 24 months, including three months in bottle.*

*Sangiovese must make up at least 80 percent of the blend, with other approved grape varieties allowed by the Denominazione di Origine Controllata e Garantita (DOCG).*

## **BAROLO RISERVA**

---

*Barolo, comprised of 100% Nebbiolo, needs to be aged for at least 38 months after the harvest before release, of which at least 18 months must be in wood. When subjected to aging of at least five years before release, the wine can be labeled a Riserva. These wines can be quite massive with a strong reputation for aging.*

**When I first started learning about Italian wine and its legendary icons, there was another wine that loomed as large as Sassicaia in my imagination. That wine was San Leonardo from Tenuta San Leonardo in Trentino.**

**While Sassicaia enjoys worldwide name recognition, San Leonardo's status is limited to a knowing group of wine connoisseurs, few of whom live outside of Italy.**

**That impressive stylistic consistency endures despite winemaker changes. Carlo Guerrieri Gonzaga studied winemaking in Bordeaux and Switzerland and relied on his close friends Piero Antinori, Mario Incisa della Rocchetta and Giacomo Tachis (a bit later in 1985) for advice when he first endeavored to make wine in the early 1980s.**

**The blueprint for San Leonardo remains the same, boasting many of the ideals shared by this visionary group of Italian vintners. Starting with the 1999 vintage, another Tuscan protagonist was introduced. Consulting enologist Carlo Ferrini remains to this day.**

VENEGAZZU<sup>®</sup>

**Our TERRITORY: a beautiful natural art work that we respect ... using 100% renewable energy.  
Our LOVE FOR WINE: that is not rational, coming from the depth of our heart.**

**Our PASSION FOR QUALITY: that is a rational and continuous energy, searching for the ideal wine, which does not want to be the expression of an absolute style, being an end in itself, but the product of a unique terroir.**

**Therefore, a TERROIR which is the synthesis of an infinite interaction between the Environment and us, living beings who inhabit it with our traditions. This is a balance of force and energies which specifically belong to this place, unique and incomparable.**

# Chateau Musar

*In 1959, Serge Hochar becomes Chateau Musar's winemaker, while completing his winemaking studies at the University of Oenology in Bordeaux, under the tutorage of Jean Riberau and Emile Peynaud.*

*The international discovery of Musar took place at the Bristol Wine Fair of 1979 when auctioneer and taster and journalist Roger Voss selected Musar 1967 as the "discovery of the Fair". Though comparisons are sometimes made with Bordeaux wine, Burgundy wine or Rhône wine, it is most frequently maintained that the wine of Musar is unique.*

*Due to the winemaking philosophy of Serge Hochar, its vintages are notoriously inconsistent.*

## THE RHÔNE VALLEY

*The red wines of the Rhône Valley are also divided into two categories. Syrah is king in the Northern Rhône; the best of these wines (Côte-Rotie, Hermitage and Crozes-Hermitage) tend to be rich, full-bodied and peppery. The main grape variety in the Southern Rhône is Grenache. These wines (exemplified by Châteauneuf-du-Pape) are generous, warm and open, filled with flavors of exotic spices and fresh herbs.*

## RED WINES OF BURGUNDY

*The red wines of Burgundy are made exclusively from the Pinot Noir grape. They are classified by the potential quality of the vineyard sites Grand Cru, Premier Cru, Villages or generic: a vineyard may have a sole owner, or be divided among dozens of different growers. The style of wine varies according to the individual grower as well as the unique personality (terroir) of the vineyard.*

*The southern half of Burgundy is the CÔTE DE BEAUNE. It starts at Beaune and runs through Santenay, passing through the villages of Pommard, Volnay, Auxey-Duresses, Meursault, Puligny-Montrachet and Chassagne-Montrachet. The red wines of this region are soft and silky, more feminine than those of the Côte de Nuits, often combining power, elegance and finesse. They are good matches with white meats (fowl and pork) as well as certain fish dishes (salmon and swordfish).*

## RED WINES OF BURGUNDY

*The northern part of Burgundy, called the CÔTE DE NUITS, begins at Dijon and continues through Nuits-Saint-Georges, Vougeot, Flagey-Echezeaux and Vosne-Romanée. Wines from this area tend to be full-bodied and masculine, capable of long-term aging, with assertive tannins and earthy flavors of berries and black cherries.*

# ROMANÉE-CONTI

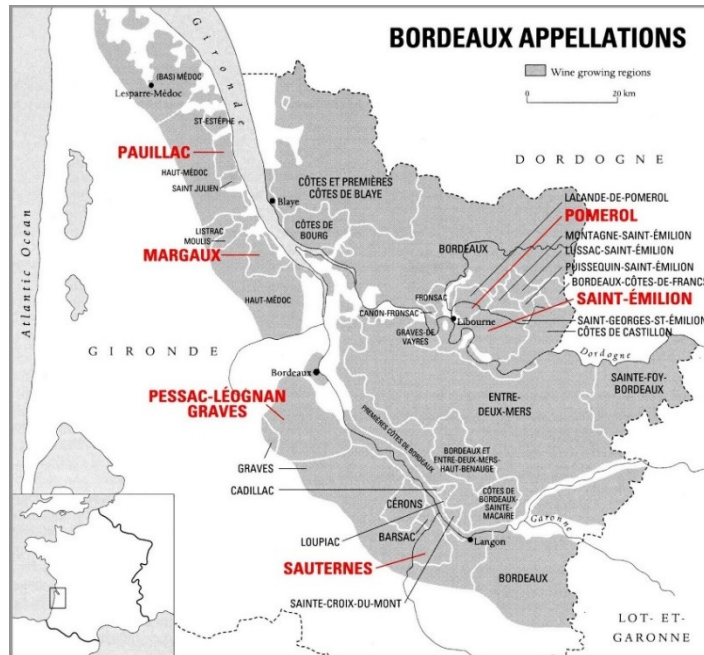

## *A FABULOUS THING*

*– mysterious, sensuous, transcendental, the greatest wine in the dukedom of Burgundy,  
once reserved for the table of princes,  
its origins blurred in the mists of time- cannot help but spawn fabulists.*

*For two centuries, no wine- no vineyard-  
has so deeply and so consistently motivated man's  
mythologizing instinct as La Romanée-Conti.*

*The communes of PESSAC-LÉOGNAN and GRAVES are situated south of the city. Red wines from this area are also full-bodied and tannic, with earthy aromas of leather, tobacco and truffles.*

*As is standard for Right Bank Bordeaux red wines, FRONSAC and CANNON-FRONSAC wines are typically made from Merlot, Cabernet Franc and Malbec grapes. Cabernet Sauvignon may also be included in Cannon-Fronsac blends, although it is less commonly used because it does not ripen as well in the cooler soils here.*

## BORDEAUX

*On the “Right Bank” of the Dordogne (a tributary of the Gironde) are ST. EMILION and POMEROL. Composed primarily of Merlot and Cabernet Franc (with very little Cabernet Sauvignon, if any), these wines are generally riper and fleshier, accessible for early drinking.*

*Château Lafite Rothschild is regarded by many experts and connoisseurs as the finest red wine in the world.  
The vineyard is planted in the proportion of  
70% Cabernet Sauvignon, 20% Merlot, and 10% Cabernet Franc.  
While it has the ability to age gracefully for many years,  
Lafite has always been regarded as the most “feminine” of the Bordeaux First Growths.

*Given the refined selection of fine wines after two decades,  
the Carruades feature characteristics similar to those of the fine wine,  
but with their own personality linked to a higher percentage of Merlot in its composition.  
The origin of the name comes from the Carruades plateau,  
the name of a group of plots adjacent to the Château’s best vineyards.*

# Lineage

*The inaugural release of Lineage marked an exciting new chapter in the long winegrowing history of the Livermore Valley appellation. But for Steven Kent Mirassou, it is not an achievement on which to rest but an ongoing, very personal journey: “A wine’s beauty is a complicated thing as what is beautiful about it differs from taster to taster: a great intensity of flavor, the way the wine pairs with food, the sense-memory it brings up unbidden like Proust’s Madeleine, the way wine helps one to overcome the travails of the day, to put a little shine on everything and everyone you see... All of these things beautiful wines do”.*

*Steven Kent Mirassou*

*We are proud to offer to our guests the most complete vertical of Lineage available.*

*Château d'Yquem is a Premier Cru Superieur wine from Sauternes. In the Bordeaux Wine Official Classification of 1855, Château d'Yquem was the only Sauternes given this rating, indicating it's perceived superiority and higher prices over all other wines of this type. Connoisseurs prize Château d'Yquem because of the estate's strict quality control: grapes are hand-picked to ensure that each individual berry has achieved the correct degree of botrytis cinerea, or noble rot, and the wine is only produced in vintages when nature provides exceptional weather and growing conditions. The naturally high acidity of the Sauvignon Blanc and Semillon grapes used in the blend is one of the factors contributing to the wine's longevity. Today Château d'Yquem is still considered one of the world's great wines and we are proud to be able to offer this vertical selection.*
