

WELCOME

Husted is a handful of restaurants, scattered around the city, with one thing in common: A lot of good wine, served with coziness and heart.

All the wines are imported by Husted Vin and come from all over the world.

Our goal is for all the wines to be sustainable, and preferably organic, if it makes sense in relation to the area they come from. Sit back and enjoy our cozy corners of the city.

-Kenn Husted

THIS IS NOT YOUR ORDINARY WINE LIST.

We are mixing things up and are trying to make it easier for you to understand and choose the right wine for the mood you are in right now.

We have a lot of categories that sometimes need an explanation, and here it is.

THE PICTURES OF EX. LEMON: There are no lemons in the wine, but it is one of the flavors that the grape smells or taste like. So do not worry, there are no leather boots in your wine.

G/L: It indicates the sugar level in the wines. For instance, a dry wine contains between 2-3 grams of sugar per liter while 22 g/l is a semi-sweet wine.

0 MG/L SO₂: It indicates the sulphite level in the wines, which is important for natural wine enthusiasts. If a white wine has below 40 mg/l SO₂ and a red wine has 30 mg/l SO₂, you can call them natural wines.

SUSTAINABLE: We are all talking about sustainability, but what does it really mean? Is it just an excuse not to be organic, or is there more to it? Most of our winemakers are either organic, biodynamic, or sustainable. Those who are sustainable have chosen not to be organic, either because of the bureaucracy of getting the label, their vineyards are too small, or for other reasons. Some believe they can do an even better job being sustainable, for example, by not spraying as much copper in the vineyard, which is commonly used in organic farming.

HVE: HVE (Haute Valeur Environnementale) is a sustainable label used in France, where they work with organic principles.

ECO: As you know it from Milk and Eggs.

BIODYNAMIC – BIO: Biodynamic wines are organic wines that follow the principles of Rudolf Steiner, including practices such as using cow horns, following lunar cycles, and incorporating specific plants in the spraying.

OAK: Many wines are stored in oak barrels. Some of the benefits include a soft maturation of the wines and the addition of vanilla flavors.

OXIDATED: Sometimes the winemaker chooses to give the wine more air, allowing it to slowly oxidize. This is a winemaking style and not a fault.

CHARDONNAY – PINOT NOIR – PINOT MEUNIER

HAUTBOIS – MONTAGNE DE REIMS - PÉVY

Fabien has a small vineyard with 8 hectares, where he uses almost all the grape varieties he is allowed to use in the area of Champagne. There is no fertilizing in the vineyards, and he is certified with 3 HVE. With a blend of the grapes Pinot Meunier, Pinot Noir, and Chardonnay, there is a little more fullness in the body than in the pure Chardonnay based wines.

VINCENT COUCHE – CÔTE DES BAR

Vincent Couche is a strong believer in biodynamic methods and is certified by Demeter. He owns land in the Côte des Bar area in Champagne and also in Chablis. He gets some help in the vineyard from his many chickens and sheep, and he has also planted fruit trees among the vine rows to achieve the perfect balance in nature. All his wines are without sulphites and express the soil perfectly.

MINIMAL INTERVENTION

PINOT NOIR – GARNACHA BLANCA – VIOGNIER – CHARDONNAY - WEISSBURGUNDER
SAUVIGNON BLANC – TARDANA - MALBEC – MERLOT - ALICANTE BOUCHET
GARNACHA NEGRE - GAMAY - NERO DI TROIA – CABERNET FRANC - CATARATTO
CARRICANTE - NEUBURGER - NERELLO MASCALESE, CARIGNAN, BLAUFRÄNKISCH

Very controversial, and for some completely enigmatic.

What is natural wine and what can you expect? In short, these are wines where there is minimal intervention in the wine, i.e., it must take care of itself, be organic, not make use of pesticides, with no added yeast, sugar or acid.

The wine must also not be filtered, and the content of sulphites (So₂) must not be higher than 30 mg/l for the reds and 40 mg/l for the whites. However, a law has not yet been made for natural wines, so it is still 'uncharted territory'

- the above are only guidelines. So, what can one expect from the wine?

Our natural wines are not completely off the rails, and do not taste of sour cider, and smell like an old sports bag. They are made with the utmost care, and it feels like they are more bare and naked, than your conventional wines.

 GEWÜRTZTRAMINER - MAPCAH - PYCAH - PNKAT - MUSCATEL - TORONTES

Now what is that?! It is a white wine that is made like red wine!

Another reach for the 'wine sky', even though the people of Georgia have been making wine this way for the last 5000 years. All of the green grape is fermented together, including skin, juice and seeds. It is the skin of the grape that gives the wine a darker colour than usual. The wine takes on an orange hue, and has more body and tannins.

The taste is dry, and towards orange peel, quince and dried apricots.

FRANCE BOURGOGNE

For many, Burgundy is a mystery and impossible to navigate around. They have the grape varieties under control, but with all the municipalities, vineyard names, producers, and even vintage differences, they don't make it easy. And of course, it is not the world's cheapest wine, and the wines can truly taste very different from producer to producer. So just get on board and hope for the best!

The Fouquerand family comes from a very old family that can be traced back to 1629. So, one should know how to make wine on the ancestral land! The estate has 18 hectares of vineyards. The name obliges! The Dauvissat family has been making wine in Chablis since 1899, and since the untimely death of the father Jean in an accident, it is the son Sebastien who is at the helm. From 10 hectares of fields, approx. 50,000 bottles annually from "ordinary" Chablis to Grand Cru. Clean seductive and sexy Chablis

DOMAINE JEAN FERY

We have finally found an organic winery in Burgundy. It is Jean Fery, and with their 14 hectar, spread over 22 municipalities, we are more than covered throughout Burgundy. He likes to use oak on his wines, so they get some more body. Fortunately, he keeps it in the cellar until the oak is well integrated and not overpowering. Just the way we like it.

DOMAINE DUTRON & FILS

The Dutron family makes wine at Chateau Vitalis, which can write history back to the 13th century. There were already vines at the castle back then, but the harsh climate and repeated frosts at that time very often prevented wine being made. So global warming is not only bad... Château Vitalis today stretches over 17 ha of Chardonnay, in Pouilly-Fuissé, which has recently been recognized for introducing several vineyards as Premier Cru.

Jean-Claude and his son Nicolas cultivate 16 hectares of vineyards and, as something quite unique in Meursault, they produce both red and white wine.

If you want to tease a wine friend and serve a wine that is nearly impossible to guess when tasted blind, choose a red Meursault

With their 1300 hectares, 4000 vineyards, and 200 farmers, they are quite significant in size. The cooperative has been around for many years, and they are on their journey towards being sustainable and organic. They cover many areas of Burgundy and therefore make it easy for us to represent a larger selection. The wines are typical of their areas and have a lighter touch than the other burgundian wines we carry.

LOIRE

The Loire is unavoidable at the moment. The valley is long, and there is a big difference from the mineral-driven coastal Melon de Bourgogne in Muscadet to the resilient Chenin Blanc in the west to the flourishing Sauvignon Blanc in the east.

Chenin Blanc and Sauvignon Blanc thrive not only in the Loire. If you enjoy elderflower-scented Sauvignon Blanc, it's definitely worth trying the Verdejo from Rueda.

SPAIN

If there is one country that is storming ahead, it is Spain.

"New" areas appear on the map, the wines become juicier, and the old cask Rioja style is becoming a thing of the past. We have a great love for the coastal regions when it comes to white wines, and the Albariño from Galicia is particularly close to our hearts.

There is an incredible amount of exciting stuff happening in areas we did not normally know about: Manchuela, Jumilla, Valencia, Monterrei and Alicante have shown us, that they can do a little bit of everything.

SHUKHRAT KHAKIMOV

Shukhrat is from Kazakhstan, educated in Bordeaux, Spanish married, and makes amazing natural wines on a smaller scale from Alicante, Valencia, Manchuela and Bordeaux.

His wines are lightly macerated, and probably the wines we represent, that are the most natural.

WEINGUT BLESIUS

Florian and his family are making amazing, crisp organic wine in the most famous area of Germany, Mosel.

The vineyards are very steep, and the wines are incredible.

He has wines that range from bone-dry to those with a lot of integrated sugar.

AUSTRIA

One of our favorite grapes is the Austrian Grüner Veltliner, with its mineral acidity, and taste of melon, green apples and white pepper, it's not to be missed!

CHRISTOPH EDELBAUER – KAMPTAL

Here there is “Ordnung muss sein”. The wines are very straight and mineral, and absolutely amazing.

CALIFORNIA & WASHINGTON STATE

California is well-known for its oaky Chardonnays. It is a style you either love or are not so fond of. In our search for the perfect oaky, jammy kind of style, we met some winemakers and blended our own Chardonnay. We called it First Cut and aged it for 6 months in American and French oak. Then we brought in some other friends so they could show their take on Chardonnay from over there. And not to miss our all-time favorite for many years, the Kung Fu Girl Riesling from Charles, which needs no further introduction.

ARGENTINA, CHILE & NEW ZEALAND

South Americans are changing, and they are beginning to prove that they too can make magnificent wines. From the Argentine highlands, Riccitelli shines with wines that almost taste European. The Chileans have embraced natural wine production and are doing it well. Last but not least, there's a textbook example of Sauvignon Blanc from Marlborough.

TERRES SECRETES & NUITON BEAUNOY

With their 1300 hectares, 4000 vineyards and 200 farmers, it is quite significant in size. The cooperative has been around for many years, and they are on their journey towards being sustainable & organic. They cover many areas of Burgundy and therefore make it easy for us to represent a larger area. The wines are typical of their areas and have a lighter touch than the Jean Fery wines.

The Fouquerand family comes from a very old family that can be traced back to 1629. So, one should know how to make wine on the ancestral land! The estate has 18 hectares of vineyards. DOMAINE JEAN MONNIER & FILS

The Monnier family has been making wine in Meursault since 1720, and the tradition and craftsmanship have always been handed down from father to son. Jean-Claude and his son Nicolas cultivate 16 hectares of vineyards and, as something quite unique in Meursault, they produce both red and white wine. If you want to tease a wine friend and serve a wine that is nearly impossible to guess when tasted blind, choose a red Meursault

PINOT NOIR & FRIENDS

Pinot Noir is a thin-shelled grape, and that is what we find charming - that a bright red wine can taste of so much.

But it's not just the Pinot Noir grape that's thin-skinned.

We have collected some of the others, - they range from the French; Gamay, Trousseau and Poulsard - to the Etna grape variety Nerello Mascalese. There is no getting around the fact that Pinot Noir thrives all over the world, and it is especially big in California.

However, there are also some good ones from Austria, Germany, Czech Republic and Argentina.

CABERNET SAUVIGNON

Cabernet Sauvignon comes in many forms from all over the world. From its birthplace in Bordeaux, where it represents cool-climate wines with herbaceous notes, to Stellenbosch in South Africa, where you find spice and nerve, and then to California, where the wines become rounder, bolder, and more focused on vanilla, chocolate, and black currant flavors. Here is a nice selection, ranging from fruity to very oaky. Dig in and enjoy!

SWEET WINE, SHERRY, MARSAL & PORT WINE

CHERRY

RASPBERRY

PLUM

BLACKBERRY

Everyone has a sweet tooth, and how nice that it is also available in liquid form. The natural fermentation of the grape must is stopped by the addition of grape spirit. This way, the must retains something of the grapes' natural sugar content. The wine becomes naturally sweet, and the alcohol percentage naturally increases.

WILD FOR WINE?

WANT TO TASTE MORE?

WINE TASTING
THERE IS NOTHING MORE
FUN THAN TASTING WINE,
AND LEARNING ABOUT IT
AT THE SAME TIME.

At our wine bars and restaurants, there is plenty of opportunity to hold tastings, both for smaller and larger companies. If it is difficult to get out the door, we are happy to come out to both companies and private individuals.

We love wine and we love good stories.

There is a good story behind all of Husted Vin's wines - and we love to tell them.

The best way is to host wine tastings - and we often do that...

We host tastings in our restaurants and out with our customers.

We speak at the level of the people who participate based on the motto:

If you like the wine, it is a good wine...

We have a personal relationship with the vast majority of producers and winemakers.

Some are good old friends, while others are new acquaintances, but they all put their heart into the production.

Every year we travel out with a handful of our team, and visit our producers.

Right here, we get the feeling of being part of something bigger - the love of good wine.

Contact us for a chat about your wine tasting so that together we can find just the right experience for you.
