Wine is alive, it is raw, wine is a fruit that is grown in some of the most beautiful, sacred places on this planet. Our goal is to share the stories not only of the grapes that are grown, but the soil they are birthed in, to the farmers that tend to them with the care that only Mother Nature could rival. We seek wineries & winemakers that focus on minimal intervention practices in the cellar, as well as farms and vineyards that are either certified organic, biodynamically farmed, or practicing these methods. Salute!
