

WINE LIST

Oinos ['i.nos]

The word “wine” comes from the Latin “vinum”, which is related to the Greek “oinos”. Greek wine history begins in prehistoric times, making Greece one of the oldest wine-producing regions in the world.

The wine selection of this list which has been created by our Sommelier Mr Eleftherios Makedonitis, will give you the opportunity to discover the best wine regions and varieties of the country together with his favorite international options. Eleftherios has traveled across Greece to meet the producers and understand their philosophy in order to share their passion and stories with you.

Great care, thought and creativity are part of every dish made by our artisan Chef. Thus, our Sommelier has applied equal dedication for the creation of an extraordinary wine offering to complement the fine cuisine of Panos Papadopoulos.
