*Champagne Grower Highlight: Sadi Malot*

NV	Sadi Malot 'Terre d'Origine' Blanc de Blancs <b>Champagne   France</b>	52
----	--	----

Coming from the Premier Cru village of Villers-Marmery, an island of exceptional Chardonnay in a region famous for Pinot Noir, this fifth-generation winery has been producing tiny amounts of astounding Champagne since 1883. Aged in a solera dating back to 1982, this Champagne manages a perfect balance between chalky minerality, bright freshness and complex autolytic flavours.

	*Discovery Session: <u>A Journey Through German Riesling</u>	95
--	--	----

German Riesling's can be dramatically varied in terms of style, yet these wines are often thought of as falling into just two categories; sweet and dry. We invite you to take a journey with us through three of Germany's most iconic wine regions with three different expressions of dry Riesling. Let us show you how dramatically different these wines truly are.

## Champagne

**Producer Highlight :** Frédéric Savart, Écueil, Champagne, France

Frédéric Savart took over his father's vineyard in 2005, planted with 3.5 hectares of Pinot Noir and 0.5 hectares of Chardonnay, and constantly strives to produce Champagnes offering the purest possible expression of their terroir. Favouring hand-work and preventive methods to preserve an ecosystem within his vines, he then guides the vinifications gently and precisely so that the wines retain their identity. His Champagnes are imbued with emotion, finesse and distinction.

## Variety Highlight: Riesling

Why do we love Riesling so much?

This intense aromatic wine, featuring citrus, flowers, and occasional petrol notes, serves as a versatile partner for a wide array of cuisines, enriching dining experiences worldwide.

Its diverse styles, ranging from bone-dry to intensely sweet, including sparkling and dessert wines, captivate both winemakers and wine enthusiasts alike. With its cultural significance rooted in Germany and a global presence in regions like Alsace, Austria, Australia, and beyond, this wine showcases its sensitivity to terroir, reflecting the soil and climate of its vineyard. As a result, it offers a spectrum of expressions, from crisp and mineral-driven to richly honeyed.

### Village Highlight: Saint-Aubin

Short story: We love Saint-Aubin wines.

Long story: Saint-Aubin, situated in the picturesque Burgundy region, has a long and vibrant history dating back to ancient times. The village has been shaped by its fertile lands and strategic location. Overall, Saint-Aubin white wines exemplify the quality and craftsmanship of Burgundian winemaking, offering wine enthusiasts a taste of the region's rich viticultural heritage and terroir-driven expression.

## Grape Highlight: Nebbiolo

The name "Nebbiolo" comes from the Italian word "nebbia," meaning fog. There are two theories behind its origin. One suggests it refers to the powdery-like bloom that covers the berries during harvest season. Another theory points to the intense fog that often covers the Langhe region, where many Nebbiolo vineyards are located.

## Phenomenon Highlight: Noble Rot

French: Pourriture noble | German: Edelfäule | Italian: Muffa nobile | Hungarian: Aszúsodás

Noble rot, also known as the *Botrytis Cinerea* fungus, thrives in high humidity and regions with warm days and cool nights, which are ideal for grape ripening while maintaining acidity. Thin-skinned, ripe grapes, particularly varieties like *Sémillon* and *Riesling*, are susceptible to the fungus, which punctures their skins, concentrating sugars and flavours. Good ventilation is also crucial to prevent the spread of unwanted moulds and ensure uniform rot development. These conditions are essential for producing prized botrytised wines renowned for their sweetness and complexity.
