

Welcome to Esters!

I fell in love with wine for many reasons, but mostly because of the stories behind the bottles. Our shelves are filled with wines made by smaller producers, whose stories I know and love.

Many people are intimidated by wine. I want to change that. The truth is, it's just grape juice. It doesn't matter what you know. Just start talking to us. Or we'll start talking to you! Do you like full-bodied wine, or lighter styles? Do you like something more earthy or fruity? What's your budget? Let's have a chat.

The wines on our walls (and in the first part of this book) are separated by style. There's a separate section for our cellar bottles. (Something extra special for THAT kind of night.)

If you fall in love with a wine on our list, you can take it home. Nearly all our bottles are available in the retail shop. So whether you're a novice or a Master Sommelier, I hope you'll find something unique to enjoy.

Cheers!
Kathryn

Farming Matters!

Over the past couple of years, we've been making steps for a healthier planet and focusing on the farming behind the bottles on our shelves. All wines coming into Esters come from chemical-free vineyards, but we're all about finding winemakers that go above and beyond by implementing one or more of the following practices.

Organic - Farming without the use of chemical fertilizers, pesticides or other artificial agents.

Biodynamic - A holistic, spiritual way of farming beyond organic. Everything in the vineyard is interconnected, working in harmony with the sun, the stars and the moon.

Dry-Farmed - Vines cultivated without irrigation. Farmers plant a variety of drought-resistant cover crops that are mulched into the land during rainy periods.

No-Till - Farming without tilling or plowing. This method doesn't disturb the soil or leave it bare. It decreases erosion, runoff and weeds, AND it's a way of sequestering carbon.

Regenerative - A way of farming that renews and heals the land. It builds soil fertility, ecosystem diversity and draws carbon down from the atmosphere through cover crops, crop rotations, compost and animal manures. This method incorporates ALL of the other farming tenets mentioned above, and it's one of the key ways to reduce global warming.

KATHRYN'S JUNE PICKS

ROSÉ

Centralas 'Hussy' Rosé, Santa Barbara, California 2019 ... 50

Biodynamically grown, barrel aged, single vineyard rosé from Alisos Canyon, Santa Barbara County, Hussy is America's first Grand Cru Rosé. While most rosés are made with the grapes that weren't good enough for red wines, Hussy is made with the biodynamically grown Grenache and Syrah grapes that were selected specifically for their quality. Made by Adam and Wendy Huss right here in Los Angeles, this refreshing summer pink will quench your thirst as it continues to heat up!

WHITE

Donkey & Goat 'Stone Crusher' Skin Fermented Roussanne, El Dorado, California 2019 ... 67

Jared & Tracey Brandt started making skin ferment Roussanne back in 2007 before the term orange wine was even coined. It was initially made this way in hopes of driving the natural fermentation to complete, but by 2009 Jared & Tracey decided the potential for such a wine — especially with food pairings — was extraordinary and they never looked back. This is their 12th vintage making Stone Crusher. With chewy tannins reminiscent of a red varietal, this wine finds its perfect balance to the rich, fruity structure of Roussanne. If you have the patience to wait, this wine will age slowly and beautifully. Tannins will integrate, revealing a depth and concentration with endless freshness.

RED

Cameron 'Abbey Ridge' Pinot Noir, Willamette Valley, Oregon 2017 ... 130

John Paul, the irrepressible owner and winemaker of Cameron, founded the winery in 1984. After working out of a roofless warehouse on the other side of the tracks in McMinnville, they moved to their current location in the hills above Dundee. John Paul came to winemaking from an academic background. After receiving a PhD in Marine Biochemistry, he realized that winemaking offered opportunities to use the right side of his brain and to drink at work. He therefore jumped academic ship and began working in the wine industry, with stints in Oregon, New Zealand, and California. Cameron Winery is dedicated to producing high-quality, hand-crafted and sustainably-farmed libations for the people. A small family operation, producing 3,000 to 4,000 cases annually, John is joined by his wife Teri, winemaker Tom Sivilli, vineyard manager Phil London, their dog Linus, Vinniethe cat, 12 chickens, 2 sheep and 2 hives of bees.
