### RIESLING

When we talk of German riesling we often think of how sweet it is, what's often forgotten is the fact that riesling is high in acidity and needs some sugar for balance. When balanced perfectly the wines are stunningly aromatic, refreshing, complex and majestic.

### JURA & JURA INSPIRED

One of the intriguing things about Jura wines is the technique of sous-voile, or under-the-veil wine making, a style in which wine is intentionally oxidised. The barrels are not entirely filled to begin with and then are not topped up as the wine evaporates and seeps into the wood. A beneficial layer of yeast (the veil) is encouraged, somewhat akin to the flor in Sherry. Handled well, the resulting wine is utterly mouth-watering flavours of perfumed fruit with underlying nutty tones.

##### DOMAINE PRIEURE-ROCHE, GRAND VINS DE BOURGOGNE

Vignerons, Henry Frederic Roch and Yannick Champ certainly don't consider themselves wine 'makers' as such, but rather custodians who manage a natural process. In humility, they allow their Grand Vins de Bourgogne to develop and express the terroir and vines from where they're born all the while protecting the developing beverage from any risks that may lead to an unbalance. Proudly, they defend the tastes born of their soils, since originality in a wine is to be enjoyed just as its vintage dictates.

Nobody does it better!!

Widely known as DRC, Domaine de la Romanee-Conti is the most famous producer in Burgundy. It has an array of vineyards (and a reputation) that are second to none. An opinion supported by the longevity of their wines, as well as the prices they fetch on the secondary market. Rarer than a hen's tooth.
