

M O T H E R V I N E

Welcome to Mother Vine, where we want to share with you our love of all things vinous.

The name Mother Vine comes from a clone of Pinot Noir, the MV6, or Mother Vine 6. Originating from Burgundy's famous Clos Vougeot vineyard, it was part of the collection of grape vine cuttings brought to Australia by James Busby in 1832, and it remains an important clone today in some of our finest Pinots.

The Mother Vine connects Australia with France, and with Burgundy. Our wine list aims to stay in touch with locals from the regions that surround Adelaide, to explore a few trends in winemaking and wine drinking, and to have plenty of wines that we love.

David, Frank, Pablo, Michael, Paddy, and team MV.

Mother Vine strives to offer wines of provenance to our guests. Due to our extensive list - some wines may be unavailable from time to time. Ask staff for a recommendation if your first selection is currently unavailable.

All our wines are handled with care and stored in our temperature controlled wine room – the vault. Ask staff if you want to take a peek inside.

OPTIONS FLIGHT

Test your palate. Mother Vine hosts wine options night's on a number of evenings throughout the year. They are a great way to get a team together and try your luck against some fellow wine enthusiasts. Options nights dates are posted on our social media, so stay in touch.

In addition to this, we like to offer the 'everyday taster' a scaled back options flight. The options flight is a selection of three wines, poured blind, and presented with a series of multiple-choice questions specific to each wine. Test your skills by attempting to select the country, the region, the variety and the vintage. For those that are confident, select the producer for a bonus prize* and a complementary flight. Flights are changed regularly so come back next time for another try.

MAGNUM FRIDAY

Friday evening has always been the best night at MV. We open up magnums to pour by the glass, while they last. Why? Because why not. Ask staff to see whats on the pour this week.

FEATURE OF THE MONTH – BLEWITT SPRINGS GRENACHE

At the north-eastern end of the greater McLaren Vale wine region is the sub-region of Blewitt Springs. This little area is home to some of Australias most reverred old bush vine Grenache. We have selected a few examples from the cellar to show case this fine area and some of the amazing wines that come from it. Go for a flight of all 5 wines to gather a snapshot of Blewitt Springs.

HALF THE SIZE, TWICE THE FUN – 375ml

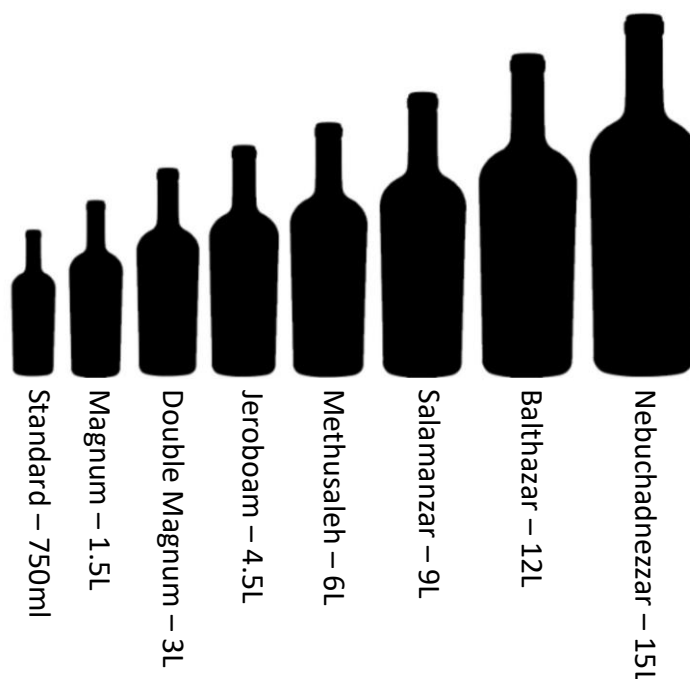

Size is important, but sometimes good things come in small packages. And as a wise person* once said, sometimes 750ml between two people just isn't quite enough. So like a good slips fielder, take the half-chances when you can, and don't be caught out with too little, or too much. Here they are, small but beautiful...

LARGE FORMAT = PARTY TIME – 1500ml

Nothing gets the party started like big bottles. We have a scattered and eclectic mix of magnums in the vault. Often purchased in small quantities and something is opened every Friday as well, making listing a nightmare. Instead we make it easy – come into the vault and have a look if you feel like something a bit bigger than usual.

POL ROGER

"My tastes are simple. I am easily satisfied with the best."

So said Winston Churchill, the portly British leader who led the war effort against the Germans, and who is now at least as well known for his one-liners, his love of Pol Roger Champagne, and for being the idol of the Brexiteer with the windswept hair. Churchill's consumption of Pol was impressive for its volume, its consistency, and its passion. Indeed, given that Churchill inspired his troops with this quote: 'Remember gentlemen, it's not just France we are fighting for, it's Champagne' and given that Pol Roger was his favourite Champagne, it follows that we owe Pol Roger for inspiring the Allies victory in WW2 and for the ensuing world peace.

So, while you contemplate which of Pol's delicious bottles to enjoy, here's one last Churchill quote to savour:

"Dinner would have been splendid...if the wine had been as cold as the soup, the beef as rare as the service, the brandy as old as the fish, and the maid as willing as the Duchess."

SHERRY

...the word, comes from Jerez, and the full name of the town is Jerez de la Frontera. It is in the extreme south of Spain and the frontera of the name refers to the frontier with Northern Africa, where the Islamic invaders came from in 711.

We love sherry, but know that the flavours can be pretty confronting. However, if you acquire a taste for sherry, it's hard to beat a tangy Manzanilla for an aperitif that refreshes the palate and goes brilliantly with savoury snacks. Although the labelling of sherry can seem opaque, it's actually a pretty simple story. The dry white wines, or base wines, are classified as being **fine** or not. The fine ones are fortified a little and aged under **flor**, a yeast that forms a film on the top of the wine while in barrel.

Flor imparts flavor – briny, iodine, seaspray – and protects the wine from oxidation. After some time in barrels, which get refreshed with young wine now and then, these fine ones are bottled with the name **Fino**. A **Manzanilla** is a Fino which has been aged in the town of Sanlúcar de Barrameda, which is right on the coast, and is a touch cooler and more humid, making the flor grow thicker. Some of the fino's are left to age further once the flor has died off – they're called **Amontillado**, with those in between Fino and Amontillado having names like Manzanilla Pasada, or Fino Amontillada.

The not fine ones, meanwhile, get a stronger dose of alcohol to fortify, and then age without flor, and therefore with long and gentle exposure to air. These are **Olorosos**. Like Fino and Manzanilla and Amontillado, Olorosos start their life dry, but they are often sweetened; sometimes a little, sometimes a lot.

RIESLING – AUSTRALIA | FRANCE | GERMANY

Riesling is, for many people, the greatest of all white grapes. It gives us brilliant, intense, and age-worthy wines that can be great young or old, dry or sweet. And to top it off, some of the world's best Rieslings are made just up the road in the Clare and Eden Valleys.

German Rieslings are some of the finest white wines of the world. Do not be hesitant based on the old Australian association with sweeter wines, that dry is always better. Riesling with residual sugar is delicious when balanced.

The labeling system and laws of German Riesling production can be a mindfield, even for the educated drinker. However a basic guide to navigating through the levels of sweetness can be eased by following the general categories.

Don't be shy, get your Riesling-on.

KELLER

'If I had to choose one wine to show how great German Riesling can be I would choose Keller Riesling. Those wines are the German Montrachets.' – Jancis Robinson MW

There is not much a bottle (or two) of Keller can't fix. Located in the small town of Florsheim-Dalsheim in the Rheinhessen region, generations of the Keller family have run the estate for over 220 years.

For those partial to good value and great quality, you will certainly find it in the *Von de Fels* wines. If off-dry or sweeter styles, comparable to few wines the world over are more to your taste, then the Auslese and Spatlese styles are outstanding... and can be enjoyed at breakfast, lunch or dinner.

CHARDONNAY FROM BURGUNDY

White Burgundy. The page where most wine makers come to browse when visiting Mother Vine. It is the fastest moving category and as a result the most edited page on the list. Small allocations come in, get listed, then go out and on and on it goes.

While some of the more iconic appellations like Meursault, Chassagne-Montrachet, Puligny-Montrachet, and the Grand Cru of Corton Charlemagne conjure thoughts of prestige and notoriety, there is certainly great value and a number of gems to be discovered in the Village and Bourgogne level.

AMBER / ORANGE / SKINS

Whether you are a fan or not, there is no stopping the rise of minimal intervention wines. One of the more notable trends to fall within this extensive and somewhat undefined bracket of wine making techniques is the inclusion of skins when fermenting white varieties. This results in an orange hue to the wine which, with age, turns to a beautiful amber, a colour akin to the fine Amontillado Sherries of southern Spain. These orange wines, like many modern wine trends, are a revival of methods used in old world regions with a long history of minimal intervention. We take a look at a few local examples as well as what we can from Europe. Give it a try, if you're game...

PINOT NOIR FROM BURGUNDY

The Côte de Nuits, located in the northern part of the Côte d'Or is the limestone ridge at the heart of Burgundy. It stretches from Dijon to just south of the commune of Nuits-St-Georges, which is the regional centre and gives its name to the district. Though some white and rosé wines are produced in the region, Pinot Noir is king here, and is the home of the most premium wines of the world.

BOJO!

Beaujolais is coming, and I'm not talking about the nouveau style of Beaujolais that gets raced through ferment and flown around the world by the third Thursday of November, which is not at all coming, at least, not to Mother Vine. 'Real' Beaujolais is what is getting us excited, and this is why: it's super-drinkable, fresh, intense, and delicious, and for the sort of hand-farmed, authentic vin-de-terroir that you can get from Beaujolais, the prices are bang on.

Where is Bojo? At the southern end of Burgundy, (not far from the great gastro-city of Lyon) where the ground changes from limestoney to granitey, and the cépage changes from Chardonnay (Pouilly-Fuissé, Macon, etc) to Gamay, or to use its full moniker, Gamay Noir a Jus Blanc.

NEBBIOLO

This is the page that the hard-core tannin fiends turn to straight away. Nebb draws a crowd of hipsters, wine bar managers, masochists (the wines can be described as strict) and the curious, lured in to see what the fuss is about. Like Pinot, the essence of Nebb can be a touch elusive, with a combination of delicate aromatics, firm tannins, mid-palate flesh, and a kick of acid pulling everything into line at the finish. Can you really have all that? It's a big ask, but it's definitely the right question.

SHIRAZ

There is no denying that Shiraz is Australia's favourite red wine. Particularly given it is our most extensively planted variety, with approx. 40,000 hectares under vine, which also makes Australia the Shiraz epicentre of the world. It is our largest export to international markets, and as such is what we are primarily known for abroad.

Today it is planted all over the country, from Margaret River in WA, to every single SA region and all the way through regional and coastal Victoria. It is also seen in the Hunter in northern NSW, down in Tasmania and even planted throughout the Granite Belt region in Queensland... It's everywhere.
