

CLASSIC WINES, CLASSIC REGIONS

(Bottle shop prices listed here, for on-site consumption add \$25)

Most of these winemakers follow sound practices concentrating on terroir-driven expressions of traditional regions. Even when not officially certified organic, you are likely not getting adulterated juice.

Unless of course you just want quaffable plonk under \$30. In that case, there's no guarantee of hand-picked, pesticide-free, small production anything. We're not judging, just sayin'...

On the other hand, if you have a sense of adventure and want to try something unadulterated, please look at the "Off the Beaten Path" list that follows.

OFF THE BEATEN PATH / NATURAL / SKIN CONTACT / ORANGE / LOW
INTERVENTION / BIODYNAMIC / WILD FERMENT / ETC. (all organic)

For this eclectic section, we didn't separate into traditional categorizations (white, red, etc.), but rather, focused on the wineries themselves who are bringing us ancestral knowledge in their own totally original way.

We encourage you to look up these talented folks and learn more about what they're doing.
