## AW23 Drinks

Our commitment to sustainability goes beyond the plate & therefore consider how everything impacts the environment. We have chosen a diverse & exciting range of drinks to accompany our food. The ethos of the restaurant is to use natural & indigenous varieties wherever possible. You will find most of our wines, spirits & beers are organic or biodynamic & a true reflection of their fruit/grain & region. Because many are unfiltered & un-refined they may look cloudy & have sediments in them. This is part of the journey discovering beverages from small craft producers & it is exactly how they are meant to be.

We encourage you to ask questions if you're curious and we would be happy to explain the wines in more detail. Enjoy!

- All prices by the glass are 125ml
- Also available in 175ml & 250ml

## Nihonshu (aka Sake)

This Japanese fermented alcoholic drink is made from regional rice. Often sweeter than wine, with less acidity and savoury, umami characteristics. Nihonshu is free of sulphates and low in acidity, therefore very easily digestible.

• All prices by the glass are 75ml

### Awasaki Sparkling
